

CDWC Annual Members' Meeting

Welcome to the Coalby Domestic Water Company Annual Members'
Meeting. This presentation outlines our progress, financial status, and future
plans for continuing to provide high-quality water service to our members.

by Wendy Weiman

Meeting Agenda

Call to Order & Introductions

Meeting begins with formal introductions of board members.

Official Proceedings

Confirm meeting notice, quorum, and approve last year's minutes.

Reports & Financial Review

Company overview, accomplishments, operations, and financial statements.

Elections & New Business

Select new directors, discuss pending matters, and adjourn.

Meeting Notice & Quorum

Official Notice

Annual meeting notices were sent to all members on June 2nd, 2025, fulfilling our bylaw requirements for timely notification.

Voting Rights

Each tap represents one share of the company and entitles the member to one vote/tap at this meeting.

Quorum Verification

A quorum (25% of 138 taps, 35) has been established with sufficient member attendance and proxy forms to conduct official business.

Previous Meeting Minutes

Reading of Minutes

Minutes from the June 15th, 2024 annual meeting will be read aloud for member review.

Discussion Period

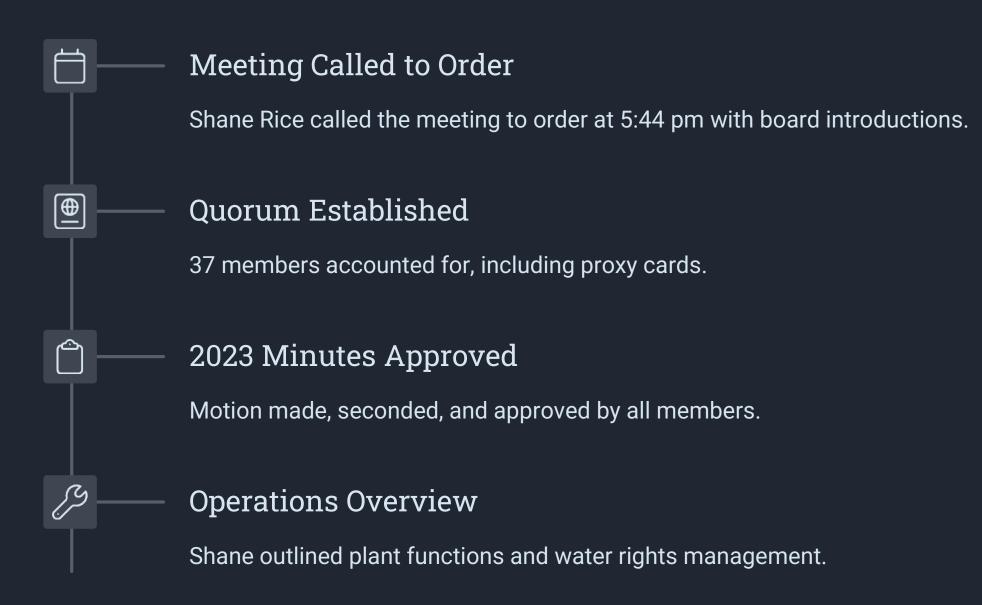

Members may ask questions or request clarification about last year's proceedings.

Approval Vote

Members will vote to approve or amend the minutes from last year's meeting.

2024 Meeting Highlights

Key Accomplishments from 2024

1 Equipment Upgrade

New chlorine analyzer installed, saving \$100 monthly in test fluid expenses.

2 Permit Renewal

Forest service use permit renewed after expiring in 2019.

3 System Growth

One new tap sold during the fiscal year.

4 Financial Strength

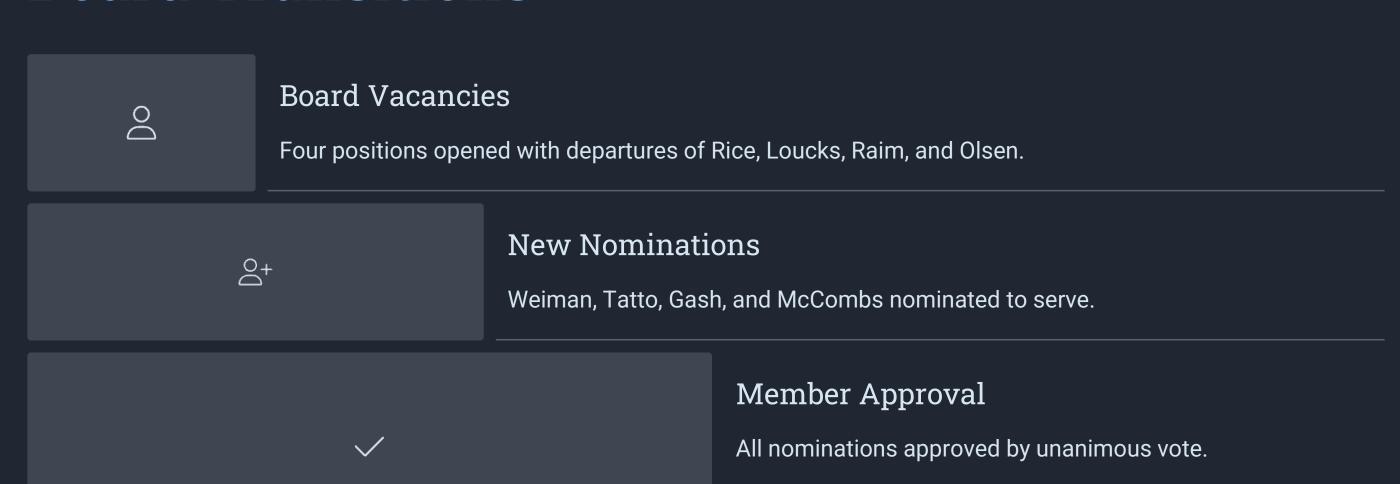

Company maintained strong finances with \$105k balance.

2024 Meeting Highlights

Meeting was adjourned.

Board Transitions

Company Overview

Member-Owned Nonprofit

Each tap represents one share and one vote. Established in 1974 with spring-fed water system.

Governance Structure

Five volunteer directors serve overlapping 3-year terms, meeting monthly to act as described in the bylaws.

Property Connection

Taps permanently assigned to respective properties. One household (kitchen) per tap. Each addition home/trailer/camper requires purchase of an additional tap.

Operational Structure

Treatment Process & Facilities

Spring Collection

Water gathered from four mountain springs

Filtration

Multi-stage filtration removes particulates

Distribution

Treated water delivered to member homes

Treatment

Chemical treatment ensures water safety

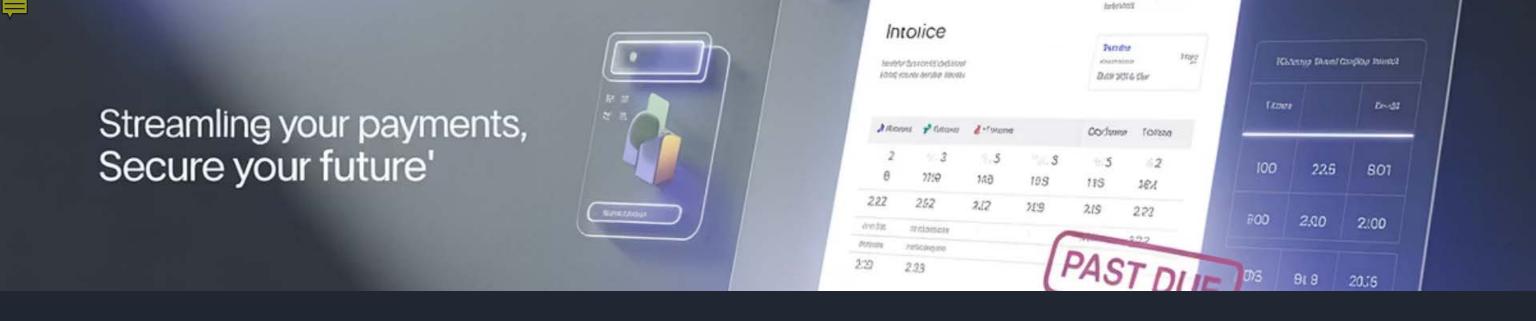

Water Augmentation Rights

Purpose of Augmentation

CDWC must replace water diverted from Ward Creek drainage basin during agricultural irrigation season due to junior water rights status.

Water Share Holdings

- Nine shares of Leon Ditch and Reservoir
- Fifteen shares in Granby Reservoir Co.
- Five and one-half shares of Surface Creek Ditch and Reservoir Co.

Payment Policy

30 Days Past Due

Board orders service shutoff. Notice sent by mail giving 30 days to pay.

Shutoff Date

Service disconnected if bill remains unpaid. \$150 reconnection fee applies.

180 Days/Over \$500

Membership terminated and tap rescinded after final 20-day notice.

Major Accomplishments

Service Line Inventory

Completed state-required documentation of all service line materials. Confirmed no lead lines present.

Efficient Billing System

Implemented new invoicing system reducing processing time from 10 to under 2 hours.

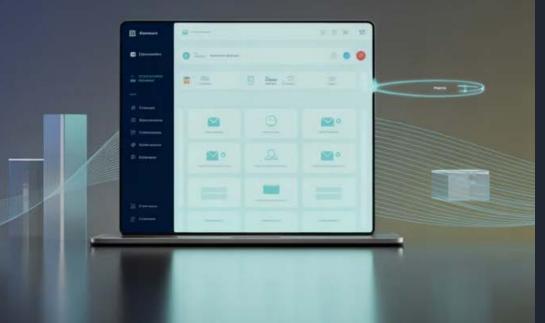

Online Presence

Acquired company website through myRuralWater.com at \$500 annual cost.

Payment Options

Added credit card payment capability with 40 members already using the service.

Connect. Engage. Grow.

Communication Improvements

Email Opt-in

Gathered 64 member email authorizations for digital communications.

Digital Invoicing

May invoices sent via email with water quality report and website links.

Automated Reminders

Implemented Phonevite system for billing and meeting notifications.

Database Development

Created automated system for annual meeting notifications via email and mail.

Automated Invoicing System

Use data from Quickbooks & meter reading sheet in Excel VBA database to generate invoices & late notices.

Delivery Options

System automatically emails invoices or creates PDFs for printing based on member preferences.

Initial Implementation

May 2025 marked first digital invoices with credit card payment capabilities.

Invoice

We have a WEBSITE! You can pay online!

4/5/2025	balance past due	\$ -	\$ -	\$ -	\$ -	\$ -	\$

base water fees \$130 for 10,000gal \$130. \$8/1000gal/1,000 excess over 20,000g tier 2 \$16/1000g excess over 40,000g Please follow the QR code or copy the link into Subtotal \$130. your browser to read CDWC 2025 Drinking Water Quality Report Total amount due

Meters are read bi-monthly on or about the 20th of the month on even numbered months. Bills are sent the 1S of the month following the meter read (Jan, Mar, May, July, Sep, Nov) and are due in 30 days. Your basic bill is for months and is \$130 for 10,000 gallons. If your bill is not paid by the due date written on the invoice a 10% pena is added each 30 days late. Once the account is 60 days past due you will receive a shutoff notice telling you th date your meter will be turned off. Once your meter is turned off, \$150 plus all money due will need to be paid before service is restored.

Infrastructure Maintenance

Spring Inspection

Annual inspection of water sources ensures continued quality and compliance with Forest Service requirements. Regular inspection of delivery infrastructure ensures system integrity and prevents service disruptions.

This collection box has a heavy steel lid with 2 locks there is a nice flow of water running into the box guessing it to be 50-60 gpm

Access Improvements to Plant

Lee McCombs cleared shrub oaks from plant access road at no cost to CDWC, improving safety and accessibility.

Water Resources Report

CDWC presently has 138 member taps on the system with 134 of those taps in active use.

CDWC's source water springs delivered in 2024 an average of 50 gallons per minute (gpm) to the filter plant. During spring runoff, the high flow rate was 61 gpm and dropped to about 50 gpm as soon as the snowmelt was over. CDWC consumer demand presently averages about 10 to 12gpm in the low demand months and 23 to 25 gpm in the high demand summer months.

Financial Management

Financial Sustainability

Balancing affordable rates with sufficient revenue generation to maintain long-term solvency.

Professional Bookkeeping

QuickBooks-based record keeping ensures accurate financial tracking and reporting.

Regular Reporting

Monthly financial statements provide transparency and enable informed decision-making.

Modern Payment Processing

Tracking credit card payments through Paystar integration streamlines collections.

Board of Directors & Officers - Duties and Responsibilities

Every officer in our organization plays a vital role in maintaining operational integrity and governance. The bylaws clearly define the responsibilities of each position to ensure smooth functioning of the corporation.

- The **President** serves as the executive leader, presiding over all meetings and handling official documentation with **VP** backup
- The **Secretary** maintains all corporate records
- The **Treasurer** oversees financial operations with appropriate controls.

Core Board Responsibilities

0

Membership Oversight

Approve applications and issue certificates. Review future construction projects. Establish and amend rules for the corporation's operation, guide its officers and employees and enforce penalties for rule violations.

[<u>]</u>

Financial Authority

Set all member fees. Borrow funds and secure loans. Commitments over \$50,000 require membership vote.

Reporting & Hiring

Present annual operational & financial reports. Select all agents, designate duties consistent with bylaws.

Ø

Water Service Management

May suspend service for non-payment or failure to repair a leak. Can restrict water usage during shortages.

Secretary and Treasurer Responsibilities

[O]

Maintains complete records of all meetings and supervises corporate books and records. Attests presidential signatures, serves notices, and keeps the corporate seal and membership records.

Treasurer Duties

Processes financial obligations, ensures checks are properly signed, and secures the corporation against theft or loss of funds. Reports financial balances at all regular meetings.

Note

The Board may collectively assume Treasurer responsibilities with quarterly financial reviews. Secretary role can be split; meeting records can be kept by a board member and the rest done by the admin/manager.

4 Open Director Positions

Position	Current Director	Term Expires	Status	Open
President	Wendy Weiman	2026	Resigning	1
Vice President	Lee McCombs	2027	Resigned	2
Director	Shirley Tatto	2027	Continuing	
Director	Robert Gash	2025	Up for election	3
Director	Don Keeler	2025	Up for election	4

Board Election Process

Identify Vacancies

Determine which director positions need to be filled based on term expirations and resignations.

Accept Nominations

Members may nominate themselves or others to serve on the board of directors.

Conduct Vote

Each tap receives one vote to select directors from the nominated candidates.

Board Organization

Newly elected directors select president and vice president from among themselves.

Backflow Prevention Requirements

What is a Cross-Connection?

Any temporary or permanent connection between public water system and non-potable water source. Examples include connections to wells or irrigation systems.

Regulatory Requirement

Colorado Primary Drinking Water
Regulation 11 mandates
adequate backflow prevention
assemblies at service
connections or cross-connection
points.

Member Survey

CDWC will distribute a survey to identify systems requiring backflow prevention devices. Your participation is essential for compliance.

Backflow Prevention Program

Systems Requiring Protection

- Private wells connected to CDWC system
- Landscape irrigation systems
- Fire suppression systems
- Swimming pools or hot tubs
- Solar water heating systems

Implementation Timeline

Phase 1: Survey distribution and data collection (September 2025)

Phase 2: Property inspections and verification (November 2025)
